

1. **CUSTOMER SERVICE** - Count on Ankeny Auto Body for hassle-free collision repair services. From insurance claims to rental cars and everything in between, we're your complete collision repair center.
2. **PAINT AREA** - Our Spraybake® Downdraft/Bake Spraybooth is an industry-standard paint environment. This environment, combined with our computerized color-matching system ensures a factory-quality finish every time.
3. **PAINT** - Ankeny Auto Body uses only Sikkens® paints on every repair. Sikkens is the industry standard in automotive finishes worldwide.
4. **WARRANTY** - Our limited lifetime warranty stands behind the work done on every repair.
5. **PUBLIC LIABILITY POLICY** - Ankeny Auto Body carries a public liability policy which covers all vehicles in our facility's premises and under our custody as well as third-party damages covering the transfer of our vehicles to another location.
6. **ALIGNMENT** - Pre-accident condition. That's our goal with the restoration of every vehicle and our collision repair systems deliver. Our CHIEF® laser measurement system combined with Hunter® wheel alignment, precisely measures your vehicle, tabulates and records damage and sets the repair plan into motion, providing our staff with a blueprint to restore your vehicle to its pre-accident condition.
7. **CONTINUING EDUCATION** - Our service team members receive continuous training from leading collision repair organizations such as I-CAR®, Akzo Nobel® and Sikkens®.
8. **TOWING** - Our 24-hour towing service is just a phone call away at 515-964-9816. Our towing fleet provides both wheel-lift and flatbed tow trucks to fit your vehicle's towing needs.
9. **SAFETY** - Simply put, we don't cut corners. A millimeter can make the difference between a correct repair and one that isn't, that's why it pays to choose a facility that's earned its reputation by doing things right. At Ankeny Auto Body we believe that precision equals safety in every repair.
10. **FACILITIES** - A clean environment staffed by friendly, knowledgeable people. That's what you'll find when you visit our facilities. With 29 active repair bays at our disposal, we stand ready to handle your collision repair needs.
